Floor-Standing Screen Support

Sturdy, free-standing plinth for kiosks and display screens.

Ideal for touch screens – the rigid design and construction minimizes movement when touched.

Stable enough to stand on a floor without the need to be bolted down (for normal use).

Elegant design – looks great with or without a graphics panel.

Features

Eye-level and DDA-compliant waist-level versions available.

Cables can be hidden inside the column.

Adjustable screen angle.

Easy to move and transport – flat packable.

Powder coated steel construction.

Standard colours are slate grey, black or silver, a full range of colours is available on request.

Round or rectangular bases available.

Suitable for screens, Panel PCs, kiosks and media players up to 22".

Mounts available for 75x75mm and 100x100mm VESA mount screens and monitors.

Optional graphics panel.

Black waist-level stand with rectangular base.
